LEGER'S WEEKLY SURVEY

PRESENTED BY

Leger

Association for Canadian Studies • Association d'études canadiennes

July 6th, 2020

Leger

METHODOLOGY

Web survey using computer-assisted Web interviewing (CAWI) technology.

From July 3rd to July 5th, 2020

1,517 Canadians and 1,006 Americans, 18 years of age or older, randomly recruited from LEO's online panel.

Using data from the 2016 Census, results were weighted according to gender, age, mother tongue, region, education level and presence of children in the household in order to ensure a representative sample of the population.

No margin of error can be associated with a non-probability sample (Web panel in this case). However for comparative purposes, a probability sample of 1,517 respondents would have a margin of error of $\pm 2.52\%$, 19 times out of 20, while a probability sample of 1,006 would have a margin of error of $\pm 3.1\%$, 19 times out of 20.

The research results presented here are in full compliance with the CRIC Public Opinion Research Standards and Disclosure Requirements.

METHODOLOGY

Notes on Reading this Report

The numbers presented have been rounded up. However, the numbers before rounding were used to calculate the sums presented and might therefore not correspond to the manual addition of these numbers.

In this report, data in bold **red** characters indicate a significantly lower proportion than that of other respondents. Conversely, data in bold **green** characters indicate a significantly higher proportion than that of other respondents.

A more detailed methodology is presented in the appendix.

If you have questions about the data presented in this report, please contact Christian Bourque, Associate and Executive Vice-President at the following e-mail address: cbourque@leger360.com or Jack Jedwab, President & CEO of the Association for Canadian Studies: jack.jedwab@acs-aec.ca

IN THE NEWS
CUSTODY OF MENG WANZHOU

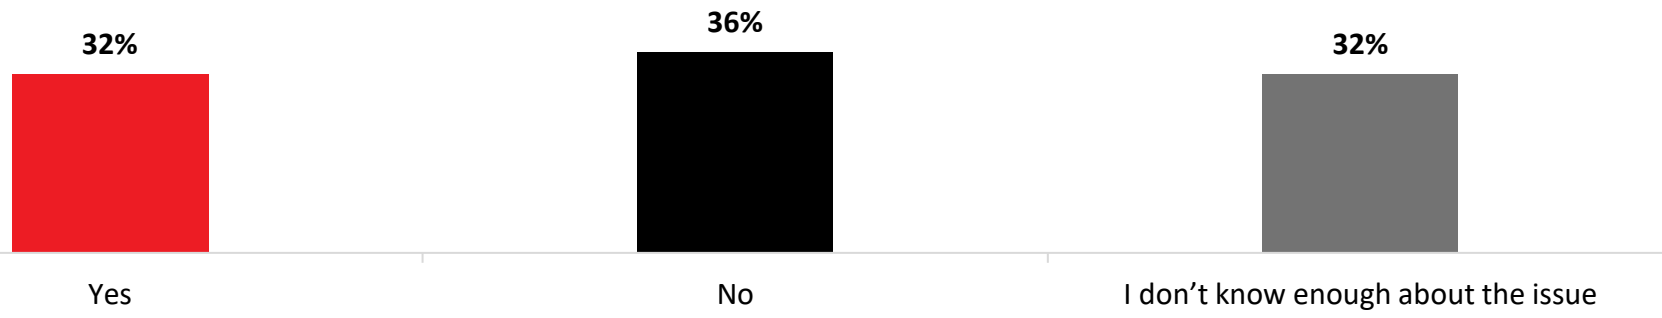

New question

CUSTODY OF MENG WANZHOU

CTC157. Meng Wanzhou, a Chinese businesswoman and one of the directors of the Huawei firm, has been in prison for several months in Canada and could be extradited to the United States to face her trial.

Should Huawei executive, Meng Wanzhou, be released from Canadian custody and allowed to return to China in an effort to free two Canadians, Michael Kovrig and Michael Spavor, being held in Chinese custody?

Base: All respondents (n=1,517)

IN THE NEWS
AIRLINE TICKET AND TRAVEL REFUNDS

AIRLINE TICKET REFUNDS

CTC158. Canada Transport Minister Marc Garneau does not intend to force airlines to offer refunds to passengers who have lost their flight due to COVID-19. Critics and passenger rights advocates have argued that Canadians are entitled to full refunds; but the Minister said he wants to avoid putting financial pressure on airlines by forcing them to offer full refunds.

Do you support or oppose the decision of the Transport Minister not to force airlines to offer refunds to passengers?

ANNEXES

DETAILED METHODOLOGY

Sampling Frame

Participants were randomly selected from LEO's online panel.

Leger owns and manages an Internet panel that includes more than 400,000 Canadians coast to coast. An online panel consists of Web users profiled according to different demographic variables. The majority of Leger's panel members (60%) were randomly recruited over the phone in the past ten years, which makes this panel very similar to the current Canadian population on a number of demographic characteristics. Moreover, 35% of panellists were recruited through affiliate programs and 5% through partner campaigns and programs.

To be eligible, respondents were required to be 18 years of age or older.

DETAILED METHODOLOGY

Weighted and Unweighted Sample

The table below presents the Canadian geographic distribution of respondents before weighting.

Province	Unweighted	Weighted
British Columbia	150	206
Alberta	132	170
Manitoba/Saskatchewan	125	99
Ontario	602	582
Quebec	408	356
Atlantic	100	104

The table below presents the American geographic distribution of respondents before weighting.

US region	Unweighted	Weighted
NorthEast	216	180
MidWest	200	218
South	299	373
West	291	234

DETAILED METHODOLOGY

Weighted and Unweighted Sample for Canada

The following tables present the demographic distribution of respondents according to gender, age and language (mother tongue) for Canada.

GENDER	Unweighted	Weighted
Male	760	737
Female	757	780

AGE	Unweighted	Weighted
Between 18 and 34	437	422
Between 35 and 54	482	509
55 or over	598	586

LANGUAGE (MOTHER TONGUE)	Unweighted	Weighted
English	919	986
French	373	316
Other	223	211

The sample thus collected has a minimum weighting factor of 0.0948 and a maximum weighting factor of 3.5093. The weighted variance is 0.3634.

DETAILED METHODOLOGY

Weighted and Unweighted Sample for The United States

The following tables present the demographic distribution of respondents according to gender and age for The United States.

GENDER	Unweighted	Weighted
Male	503	488
Female	503	518

AGE	Unweighted	Weighted
Between 18 and 29	134	221
Between 30 and 39	189	173
Between 40 and 49	177	187
Between 50 and 64	296	251
65 or older	210	173

The sample thus collected has a minimum weighting factor of 0.0948 and a maximum weighting factor of 3.5093. The weighted variance is 0.3634.
