METHODOLOGY

Web survey using computer-assisted Web interviewing (CAWI) technology.

From June 12th to June 14th, 2020

1,527 Canadians and 1,004 Americans, 18 years of age or older, randomly recruited from LEO's online panel.

Using data from the 2016 Census, results were weighted according to gender, age, mother tongue, region, education level and presence of children in the household in order to ensure a representative sample of the population.

No margin of error can be associated with a non-probability sample (Web panel in this case). However for comparative purposes, a probability sample of 1,527 respondents would have a margin of error of $\pm 2.51\%$, 19 times out of 20, while a probability sample of 1,004 would have a margin of error of $\pm 3.1\%$, 19 times out of 20.

The research results presented here are in full compliance with the CRIC Public Opinion Research Standards and Disclosure Requirements.

METHODOLOGY

Notes on Reading this Report

The numbers presented have been rounded up. However, the numbers before rounding were used to calculate the sums presented and might therefore not correspond to the manual addition of these numbers.

In this report, data in bold **red** characters indicate a significantly lower proportion than that of other respondents. Conversely, data in bold **green** characters indicate a significantly higher proportion than that of other respondents.

A more detailed methodology is presented in the appendix.

If you have questions about the data presented in this report, please contact Christian Bourque, Associate and Executive Vice-President at the following e-mail address: cbourque@leger360.com or Jack Jedwab, President & CEO of the Association for Canadian Studies: jack.jedwab@acs-aec.ca

IN THE NEWS

New question

TRUST IN POLICE SERVICES (Evolution)

CTC39. To what extent do you trust the following... **Police services?**

Base: All respondents

% Trust (a lot + somewhat) presented

**TRUST IN POLICE SERVICES
(CANADA VS UNITED STATES)**

CTC39. To what extent do you trust the following... Police services?

Base: All respondents

	TOTAL CANADA	Caucasian	Visible minority
Weighted n =	1,527	1,320	185
Unweighted n =	1,527	1,323	188
% Trust (very + somewhat) presented	70%	72%	61%

	TOTAL USA	Caucasian	Visible minority
Weighted n =	1,004	749	247
Unweighted n =	1,004	793	203
% Trust (very + somewhat) presented	60%	65%	44%

FEELING SAFE IN INTERACTIONS WITH POLICE OFFICERS

CTC119. Did you feel safe when you have had to interact with police officers?

Base: All respondents (n=1,527)

	TOTAL CANADA	ATL	QC	ON	MB/SK	AB	BC	18-34	35-54	55+	Urban	Sub-urban	Rural	Caucasian	Visible minority

ANNEXES

DETAILED METHODOLOGY

Sampling Frame

Participants were randomly selected from LEO's online panel.

Leger owns and manages an Internet panel that includes more than 400,000 Canadians coast to coast. An online panel consists of Web users profiled according to different demographic variables. The majority of Leger's panel members (60%) were randomly recruited over the phone in the past ten years, which makes this panel very similar to the current Canadian population on a number of demographic characteristics. Moreover, 35% of panellists were recruited through affiliate programs and 5% through partner campaigns and programs.

To be eligible, respondents were required to be 18 years of age or older.

DETAILED METHODOLOGY

Weighted and Unweighted Sample

The table below presents the Canadian geographic distribution of respondents before weighting.

Province	Unweighted	Weighted
British Columbia	150	207
Alberta	128	171
Manitoba/Saskatchewan	133	100
Ontario	603	586
Quebec	412	358
Atlantic	101	104

The table below presents the American geographic distribution of respondents before weighting.

US region	Unweighted	Weighted
NorthEast	230	180
MidWest	193	218
South	301	372
West	280	234

DETAILED METHODOLOGY

Weighted and Unweighted Sample for Canada

The following tables present the demographic distribution of respondents according to gender, age and language (mother tongue) for Canada.

GENDER	Unweighted	Weighted
Male	752	748
Female	775	779

AGE	Unweighted	Weighted
Between 18 and 34	371	410
Between 35 and 54	517	527
55 or over	639	590

LANGUAGE (MOTHER TONGUE)	Unweighted	Weighted
English	952	1,049
French	397	318
Other	178	160

The sample thus collected has a minimum weighting factor of 0.1337 and a maximum weighting factor of 4.9006. The weighted variance is 0.4644.

DETAILED METHODOLOGY

Weighted and Unweighted Sample for The United States

The following tables present the demographic distribution of respondents according to gender and age for The United States.

GENDER	Unweighted	Weighted
Male	503	487
Female	501	517

AGE	Unweighted	Weighted
Between 18 and 29	115	221
Between 30 and 39	217	221
Between 40 and 49	154	187
Between 50 and 64	309	251
65 or older	209	173

The sample thus collected has a minimum weighting factor of 0.1337 and a maximum weighting factor of 4.9006. The weighted variance is 0.4644.
